Introduction to the course

This short course offers an introduction to the **international legal framework** in which reinsurance business operates. Classes are taught through a **co-teaching** approach involving academics and practitioners. Each course lasts 90 minutes and includes a **theoretical** and a **practical session** (each lasting about 45 minutes).

The individual topics are dealt with from a **comparative perspective**, according to Swiss and German, English and/or US-American law, and the recently “Principles of Reinsurance Contract Law (PRICL)”.

The content includes key legal issues in **underwriting** and **claims handling** as well as in (international) **regulation** and reinsurance **arbitration**.

Short Course

International Reinsurance Law: complimentary course at UCL London

The Zurich Short Course may be booked as a *stand-alone* course or in combination with the parallel London Short Course on UK Reinsurance Law.

The content of both courses is coordinated so that they complement each other.

The poster features a background image of a financial candlestick chart with a blue line graph overlaid. The chart shows price fluctuations with a notable peak and a subsequent decline. A dashed white line indicates a trend. The text is overlaid on this background. At the top left, it says 'UCL Laws Executive Education'. At the top right is the UCL logo. In the center, the title 'Reinsurance Law' is prominently displayed in white. Below the title, the dates '22 & 23 June 2026' and the location 'at University College London' are listed. In the bottom right corner, there is a crest logo for the Chartered Insurance Institute, with the text 'Chartered Insurance Institute' and 'Accredited' next to it.

Reinsurance law and regulation

What is reinsurance (law)?

Definition of reinsurance

Definition of reinsurance law

How is reinsurance supervised?

EU Directive 2009/138/EC (Solvency II)

Swiss Insurance Supervisory Act
(Versicherungsaufsichtsgesetz, VAG)

What sources are available?

Statutory law

Case law

Reinsurance custom

PRICL

What is special about ... ?

Captive reinsurers

Special Purpose Vehicles (SPVs)

Duties of the parties & remedies for breach of duties

What are the essential obligations in reinsurance law?

Specific duties in reinsurance law in general

Structural approach of the PRICL

Which duties are addressed?

General duties

Duties owed during the contract period

Duties owed during the claims process

How are breaches sanctioned?

Principles of general contract law (PICC)

Principle of proportionality

“Avoid avoidance” (no retroactive effects)

Special remedies in cases of fraud

Do these remedies differ from those under national law?

UK law

Civil law

Utmost good faith **pre-contractual disclosure**

Why is utmost good faith important?

Fundamental principle

Instrument of interpretation & gap filling

Basis for legal developments

Manifestations in statutory national law

How does utmost good faith affect the reinsurance contract?

Scope of Article 2.1.2 of the PRICL

Differentiation between good faith and utmost good faith

Illustrations/case law

What does the reinsured's duty of pre-contractual disclosure entail?

Structure of Article 2.2.1 of the PRICL

Materiality & knowledge

What are the special features of remedying misrepresentations?

Concept of Art. 3.2 PRICL

Adjustment of conditions/premium

Right to avoid the contract

Right to claim damages

Back-to-back cover

What is back-to-back cover?

Definition

Economic purpose

Back-to-back-cover wordings

Differentiation from follow settlements etc.

What are the practical effects?

„Seemless“ reinsurance cover

Back-to-back-interpretation

Limits of back-to-back-clauses

What if the incorporated terms are modified?

General rule

Contractual arrangements for modifications

How does case law handle back-to-back-clauses?

English case law

New features from PRICL

Contract certainty

What does „contract certainty“ mean?

Timely & comprehensive documentation of the contract

Why is contract certainty needed?

(Old) handshake principle as an uncertainty

Experience from „September 11 attacks“ (WTC) and other catastrophes

How does the London market ensure contract certainty?

Contract Certainty Code of Practice (2018)

Market Reform Contract (MRC)

London Market Group

Is there a contract certainty requirement in EU law?

EU Directive 2009/138/EC

How do PRICL deal with the issue?

Art. 2.3.2 PRICL

Contract certainty and legal certainty (PRICL)

What is the role of wording books?

Example: Swiss Re model clauses and Swiss Re templates

Follow fortunes & follow settlements

What do „follow fortunes“ and „follow settlements“ mean?

Duties of the reinsurer

Differentiation between „fortunes“ and „settlements“

What are the main differences in English, US and Swiss/German law?

Duties to follow as „implied terms“?

Interpretation of „follow“ clauses

Limits of duties to follow

How do PRICL deal with the duties to follow?

Art. 2.4.3 PRICL

Practical examples (in comparison to existing case law)

What is the relation between „follow settlements“ and „claims cooperation clauses“?

Levels of control (underwriting, claims handling)

Interaction with follow clauses

Case law comparison

Aggregation of losses

What does „aggregation of losses“ mean?

Definition

Practical relevance (attachment point and limits)

Interaction of allocation and aggregation

Which types of aggregation mechanisms are used in practice?

Unifying factors: event, cause, occurrence, catastrophe, calamity etc.

Market practice

Relevance of the specific wording

How do aggregation clauses operate in practice?

Examples from English case law

Application of the unities test

How do PRICL aggregate losses?

Art. 5.1 – 5.3 PRICL

Event v. cause based aggregation

Comparison with English law of aggregation

Underwriting and PRICL aggregation

Claims Handling: Current Issues and PRICL

What is special about handling reinsurance claims?

General differences between direct insurance and reinsurance

The role of utmost good faith

What are mutual rights & remedies?

Notice of claims

Claims cooperation

Duty to follow and claims handling

Timely payment

How do PRICL deal with claims handling?

Role of PRICL: general observations

Art. 2.4.1 – 2.4.4 PRICL

Other relevant rules

Reinsurance Arbitration & PRICL

Why arbitrate?

Arbitration as a „private“ dispute resolution mechanism

Advantages of arbitration & possible disadvantages of arbitration

How to arbitrate?

Arbitration clauses: market practice

Ad-hoc- v. institutional arbitration

Procedural rules

Issues of multi party arbitration

Issues of international enforcement

Which law governs the dispute?

Choice of law clauses: market practice

Limitations to choice of law by the parties

Relevance of PRICL for reinsurance arbitration?

PRICL as applicable law

PRICL as incorporated contract terms

PRICL as *persuasive authority*
